A SOLUTION.

It has been called to our attention the numerous times many candidates for office always state that they are in favor of good roads.

Now, in all these announcements they do not give any definite plan whereby we may obtain these good roads. There is no monopoly in the want for good roads and everyone is in favor of them. Good roads are a necessity for the welfare and prosperity of a country town. They are indispensable to the convenience and prosperity of the man in the country. This prosperity has no argument. Everybody knows we should have them, but no one suggests the means to obtain them.

One idea that appeals to the Herald is: To organize the counties into road districts the same as into drainage districts, bond the road district and have roads built by contract. The bonds might run for say, ten or twenty years at a low rate of interest, and during this time we could be using this superbly fine road at all seasons of the year. We understand that the poll tax being paid by each man is now \$3.00 per year, and it is put into mud holes this season, and again next season we have the same mud hole to put that next \$3.00 into. At the end of twenty years we still have those \$3.00 mud holes with us, having expended the money for absolutely nothing.

During twenty years an individual's poll tax amounts to \$60.00, and the sum total for Pemiscot county for the twenty years would be something like \$150,000.00, which, instead of being put into mud holes, put into good, permanent roads of concrete or other modern kind of road construction would build a great many miles. Add to the amount of the poll tax assessed the amount of road tax collected on property values for the twenty years would make everlasting the best roads known to mankind, over every mudtrail in this county, and construct as many more as are required for the general convenience of the public. With such roads as this stupendous sum could build, two mules could at all seasons of the year pull to market, or to some shipping point as much as the wagon could carry.

Think of it! Twenty years in which to pay, and the good roads in use during all this time. No heavier taxes, and a whole lot more convenient. Under our present system(?) or no system at all, we pay in twenty years just as much, and use these roads(?) advantageously a small portion of the time. At certain times of the year one can hardly come to town horseback, much less with buggy. This is expressly our idea, and if our friends who are trying some solution in road building can suggest a better one, we will be glad to devote his matter space. Let us hear from them.

SCHOOL NOTES.

By W. H. JOHNSON, Superintendent.

Miss Irma Pickens of Cape Girardeau visited her sister, Miss Mamie, last week. While here she spent a half day visiting school.

The Freshman Class entertained the Seniors last Friday evening at the home of Mr. and Mrs. O. N. Watts. We understand the occasion was an enjoyable one.

The class in Junior English has finished Scott's Kenilworth and is now studying Shakespeare's "Twelfth Night."

An extra teacher will be added in the grades next year, making a total of ten teachers in the school. The addition of this extra teacher consumes all the extra room in the building.

School gardening will be done by rooms this year. Each room beginning with number three, has been allotted a plot of ground. There will be considerable rivalry to see which room can make the best garden. The work for the most part will be done outside school hours.

Pearl Chism who has missed school several days on account of poor health, was out of school the latter part of this week and may have to discontinue her studies for the remainder of the term. We regret to lose Pearl and sincerely hope her health may improve so much that she can finish up her year's work.

Dr. George Washington Phipps and wife and Elwood Scott and wife of Caruthersville came over to this city Sunday and took dinner with John Scott and family.

SEVEN YEARS AGO.

A lecture was given in this city for the benefit of the school, and Profs. B. S. Stearns and H. L. Davidson were just shy \$10 caused by the lack of patronage; they guaranteeing \$30.

The City of Steele had just discovered that it had been exercising jurisdiction beyond its limits. And that the mayor, marshal and most of the aldermen, as well as the calaboose, were outside of the city limits.

The people of Caruthersville were just making an extensive preparation for the Drummers' Association which met there the last of May.

The Hayti Herald with this issue had just reached its 6th month of age. Its columns were quite full of nice advertising.

John F. Trautmann of St. Louis, a retired business man, was here for a month's visit with his son, Dr. T. J. Trautmann.

A train of 26 cars of cattle passed through Hayti from Kennett for the St. Louis markets.

Congressman Chas. A. Crow of Caruthersville had just lost one of his eyes, and was under treatment.

LOCAL AND PERSONAL.

C. J. Mayes and son, Howard, of Kennett came over Monday to visit his father, Dr. F. A. Mayes, who was taken to St. Louis on the noon train.

We will sell shoes as long as the baby is born without them—Buckley.

J. W. Stewart and L. L. LaRue of Terry neighborhood were in Hayti Saturday trading with our merchants and getting ready for a bumper crop this year.

Miss Myrtle Poe of Gideon, Miss Dessie Holman of Portageville and Miss Pauline Simms of Clarkton were here Saturday interviewing the members of our school board relative to a position in our schools.

F. M. Klingensmith of Concord is now the possessor of a new Allen car. We suspect that the Squire is going to canvass the upper end of the county in his new automobile, in his race for associate judge.
